

Food Standards Scotland

For safe food and healthy eating

**Strategic Issue Register:
Q1 2024/25**

Background

The Strategic Issue Register is designed to record and monitor issues impacting on the successful delivery of the FSS Strategy. The most important issues to FSS are those which will affect the delivery of the strategic objectives and key goals.

This approach aims to lay out a clear and direct line between the issues identified to strategy delivery and each of the goals and strategic objectives.

The FSS Strategic Issue Register exists to ensure that:

- Strategic issues are identified and managed.
 - Actions are determined, prioritised and action plans are implemented.
 - The effectiveness of existing actions are evaluated.
 - The Strategic Issue Register supports the FSS Strategic Plan.
-

Strategic Issue: Key

STATUS KEY: Severity

Very High	Destructive and unacceptable impact on FSS/business operations that will result in a major change to overall approach. Large resource consequences.
High	Significant and unacceptable impact on FSS/business operations that will require material change to critical approach, procedure or process. Challenging resource implications.
Medium	Moderate impact on FSS/business operations that will require multiple changes in approach, procedure or process. Acceptable level of resource consequences
Low	Minor impact on FSS/business operations, will require little overall change in approach. Few resource consequences.

STATUS KEY: Actions

Completed	
On target	On target for completion
Ongoing	Delayed/delay anticipated but no negative impact on successful issue resolution
Ongoing	Delayed/delay anticipated with negative impact on successful issue resolution

STATUS KEY: Priority

Strategic Issue No 1:

FSS BUDGET ALLOCATION

FSS budget allocation is no longer adequate to meet all its outcomes as detailed in the 5 year strategy. This however has created an opportunity for FSS to become more efficient and effective in its delivery of statutory functions, whilst investing in the Public Service Reform Programme. The recently published 2024-2026 Corporate Plan reflects a realistic suite of organisational priority deliverables

FSS Budget Allocation

Issue No: 1	Executive Lead: G McEwan	Version: 2.0	Date issue raised: 24 August 22, by Geoff Ogle (FSS CEO) Date issue reviewed: Jul-24 Current status: ongoing
Issue Title		Issue Description	
<p>FSS BUDGET ALLOCATION FSS budget allocation is no longer adequate to meet all its outcomes as detailed in the 5-year strategy.</p> <p>This however has created an opportunity to become more efficient and effective in delivery of statutory functions, whilst investing in the PSR Programme. The recently published 2024-2026 Corporate Plan reflects a realistic suite of Organisational priority deliverables</p>		<p>Escalation history: FSS has been heavily impacted by leaving the EU and actual experience post-exit is bringing significant financial and staffing pressures on pre-existing and ongoing operational delivery. The June 2023 Scottish Government announcement, relating to the spending review, further impacted on FSS’s financial situation with an FSS allocation of £23m for 2022/23 to 2026/27. This represented a real terms cut and has now resulted in the decision that Risk no: 3 has effectively materialised, broadened in nature should therefore be managed as an ongoing issue.</p>	
Strategic Objective(s)		Strategic Goals	
<p>Insufficient revenue budget impacts upon FSS’s ability to delivery on all Strategic Objectives.</p>		<ol style="list-style-type: none"> 1. A food safety and standards assurance system that commands international respect and consumer confidence, supporting the Scottish economy beyond EU Exit. 2. A regulatory system that engages with businesses to educate and enable compliance, rewards best practice, and applies appropriate sanctions when laws are broken. 3. A research and data science capability which enables us to detect risks, monitor public health trends and consumer behaviours, and translate evidence into action. 4. A food environment which empowers consumers to make safe, healthy, and sustainable choices.

ALL	<p>Public Service Reform Programme: (PSR) has commenced and FSS have made an initial submission providing opportunities for efficiencies, service improvements and significant income generation. This has yet to be actioned by SG.</p> <p>SAFER Issue provides more detail.</p>	30		2033	2026	G McEwan	
	Corporate Services have developed the FSS 2024-26 Corporate Plan based on essential business needs and resource requirements. This plan will identify key deliverables for FSS between now and 2026 in line capacity and budget allocation.	100		Mar-24		G McEwan	
	Identify collaborative specialist resourcing opportunities with other similar organisations to improve capacity and capability at minimal costs.	80		Mar-24	Ongoing	FSS Managers	
	Financial management plan 2024-26 has been developed in accordance with the Corporate Plan to ensure budget synergies and a realistic appraisal of what FSS can achieve between 2024-2026.	100		Mar-24		G McEwan	
	FSS are in the process of drafting a new 5-year strategy which will be ambitious, realistic and supported by an integrated Finance, business and workforce planning methodology and process.	10		Q1 2026		G McEwan	

Strategic Issue No 2:

LOCAL AUTHORITY FOOD LAW DELIVERY MODEL

Increasing resource pressures, including finance and staff, on Local Authorities and FSS has resulted in a delivery model which lacks the capacity, capability and competency needed to meet current and future challenges

Local Authority Food Law Delivery Model

Issue No: 2	Executive Lead: I McWatt / L Murray	Version: 2.0	Date Issue raised: Oct-22 Date issue reviewed: Jul-24 Current status: ongoing
Issue Title		Issue Description	
Local Authority Food Law Delivery Model Increasing pressures on Local Authorities and FSS result in a delivery model which lacks the resilience needed to meet future challenges.		Escalation history: The Public Sector collectively has failed to invest in the training and supply of professional resource, mainly due to funding cuts, therefore Local Authorities are unable to deliver food law requirements as prescribed in the Food Law Code of practice. The demand for professionally qualified staff within Local Authority Environmental Health and Public Analyst Services, therefore, far outstrips supply risking the ability to meet statutory food law intervention requirements. The recommendation of the Strategic Risk Management forum is that risk 6 has effectively materialised and should be managed as an ongoing issue.	
Strategic Objective(s)		Strategic Goals	
Food is Safe and Authentic Responsible Food Businesses are Enabled to Thrive Consumers are empowered to make positive choices about food FSS is Trusted and Influential		1. A food safety and standards assurance system that commands international respect and consumer confidence, supporting the Scottish economy beyond EU Exit. 2. A regulatory system that engages with businesses to educate and enable compliance, rewards best practice, and applies appropriate sanctions when laws are broken 5. Be respected as an authority on food protection and public health nutrition, promoting change through impactful relationships within and beyond Scotland that enable us to influence, learn and collaborate.

1,3,5	A programme of modernisation (known as SAFER) to address the continued deterioration of LA capacity and capability in delivering food law interventions is being designed. Execution of the Programme is dependent on additional resource being made available. Until such time as this is confirmed progress is limited to essential business as usual support for LAs.	5		2025/26	2026/27	L Murray	

Strategic Issue No 3:

EXTERNAL POLICY PRESSURES

External Policy Pressures

Issue No: 3	Executive Lead: Garry Mournian	Version: 1.0	Date issue raised: 12 February 2024 Date issue reviewed: Jul-24 Current status: Ongoing
Issue Title		Issue Description	
EXTERNAL POLICY PRESSURES		<p>The UK Government’s post-EU Exit deregulatory and regulatory reform agenda is impacting significantly across the Devolved Administrations, including in FSS led policy areas in Scotland as a result of reform initiatives being progressed by FSA, Defra and DHSC. The policy and regulatory environment is now significantly more complex due to the interaction of the UK Internal Market Act, UK Common Frameworks, and the Retained EU Law Act, and FSS’s ability to remain fully engaged across the full range of these reform initiatives within existing resource constraints remains very challenging, with consequent risks around GB/UK divergence, impact on delivery of core statutory obligations, and staff wellbeing.</p> <p>Escalation history: The recommendation of the Strategic Risk Management Forum held on 12 February 2024 is that risk 8 has effectively materialised and should be managed as an ongoing issue.</p>	
Strategic Outcome(s)		Strategic Goals	
Food is Safe and Authentic Responsible Food Businesses are Enabled to Thrive Consumers are empowered to make positive choices about food FSS is Trusted and Influential		<ol style="list-style-type: none"> 1. A food safety and standards assurance system that commands international respect and consumer confidence, supporting the Scottish economy beyond EU Exit. 2. CONTROLS IN PLACE							
Quarter 1							
Goal	Actions	% Complete	Status	Original Completion Date	Revised Completion Date	Action Owner	
ALL	Continue to make the case to Scottish Ministers that delivery of FSS's post-EU Exit policy and statutory responsibilities and ability to influence cross-UK policy making for the benefit of Scottish consumers and food businesses will be constrained within the current budget settlement.	20		Ongoing		Geoff Ogle	
	Continue to remind policy leads in FSA, Defra, DHSC of UK common framework obligations as part of the policy development process and work across teams to publicise framework commitments once they move from provisional to final agreement. This includes leading on the development of joint operational FSA/FSS guidance on framework delivery.	70		Ongoing		Garry Mournian	
	Prioritise reform of the GB regulated products regime in line with FSS Board steer, seeking to progress priority reforms in 2024. FSA are awaiting to understand UKG priorities and potential impact on reform work.	40		Dec-24		Garry Mournian	
	Undertake a full impact assessment of the UK Government's Genetic Technology (Precision Breeding) Act 2023, and EU New Genomic Techniques (NGT) proposals, and implications for Scotland, with a view to making recommendations to the FSS Board in 2025 (subject to Board discussion in winter 2024).	30		Apr-25		Garry Mournian	
	Prioritise collaborative working with Defra and SG on any proposed food labelling changes, including participation in a Defra led GB-wide consultation on animal welfare and country of origin labelling.	80		Ongoing		Garry Mournian
